

Wastewater TSS, BOD, P Removal

WT 5502 and 6502

Water Tech WT 5502 and 6502 are high performance coagulant polymer blends, specially formulated to achieve extremely high levels of **TSS, COD, BOD, Phosphorous, Turbidity, Color, and Organic Removal.**

WT 5502 and 6502 offers superior clarification in industrial and municipal waste water. The high concentration of highly charged active ions in WT 5502 and 6502 results in cost effective treatment performance. Other advantages include **Improved Sludge Dewatering, No pH Reduction, Longer Filter Runs, and ... Water Compliance.**

Application:

WT 5502 and 6502 is supplied as an easy to use liquid in 275 gal. tote bins or bulk. WT 5502 and 6502 may be applied directly without dilution, using a standard chemical metering pump. Your Water Tech Engineer will assist with the proper start-up and application of WT 5502 and 6502 in your water treatment system.

Properties:

Physical State	Liquid
Appearance	Clear to Pale Yellow
Water Solubility	Complete

Benefits:

- ***Removes TSS, COD, BOD, P, Color and more.***
- Enhances removal without excess Fe in the effluent.
- Improves Sludge Dewatering.
- Highly Concentrated and Cost Effective.
